

# DWARF FLOWERING ALMOND

- Plant in full sun.
- Double pink flowers in early spring. Yellow-orange fall color.
- Ideal as an accent, mass, or shrub border planting.

**3' - 4'**  
Height

**3' - 4'**  
Spread

**Pruning:** Prune after the plant has flowered in late spring. Will tolerate being pruned back hard.

**Fertilizing:** Apply 12-12-12 fertilizer in March/April and in October/November. Also a fall application of Superphosphate will enhance flowering.

**Watering:** During the first year, deeply water plants once a week until the ground freezes in Fall. When watering, let the water slowly soak around the plant. Also remember to use **Root Stimulator** when watering.
