

SARGENTINA CRABAPPLE

- Plant in full sun.
- Small, compact tree with bright red buds opening to pure white flowers in spring followed by red fruit.
- Great as a specimen or accent planting.

5' - 6'
Height

5' - 6'
Spread

Pruning: Prune in spring after the tree has flowered if needed.

Fertilizing: Apply 12-12-12 fertilizer in March/April and in October/November. Also a fall application of Superphosphate will enhance flowering. Use Chickity Doo Doo as an Organic alternative to 12-12-12.

Watering: During the first year, deeply water plants once a week until the ground freezes in Fall. When watering, let the water slowly soak around the plant. Also remember to use **Root Stimulator** when watering.
