

COOL SPLASH DIERVILLA

- Plant in part shade for best results.
- Panicles of yellow, trumpet bloom cover the variegated foliage in late spring. Spreads by underground suckers.
- Great as an accent plant in a shady, woodland garden or for naturalizing.

2' - 3'

Height

2' - 3'

Spread

Pruning: Prune in early spring or as needed to maintain desired shape.

Fertilizing: Apply 12-12-12 fertilizer in March/April and in October/November. Also a fall application of Superphosphate will enhance flowering. Use Chickity Doo Doo as an Organic alternative to 12-12-12.

Watering: During the first year, deeply water plants once a week until the ground freezes in Fall. When watering, let the water slowly soak around the plant. Also remember to use **Root Stimulator** when watering.
