Pruning: Prune in early spring/late fall or as needed. Cutting the plant back to 8" - 12" every couple of years will maintain a strong stem color.

Fertilizing: Apply 12-12-12 fertilizer in March/April and in October/November. Use Chickity Doo Doo as an Organic alternative to 12-12-12.

Watering: During the first year, deeply water plants once a week until the ground freezes in Fall. When watering, let the water slowly soak around the plant. Also remember to use **Root Stimulator** when watering.
