

# PEE GEE HYDRANGEA

- Plant in full sun to part shade.
- Large white flowers appear late summer when little else is blooming.
- Great as an accent or mass planting.

**8' - 12'**

Height

**6' - 8'**

Spread

**Pruning:** Prune in late fall/early spring. This hydrangea blooms off new growth.

**Fertilizing:** Apply 12-12-12 fertilizer in March/April and in October/November. Also a fall application of Superphosphate will enhance flowering. Use Chickity Doo Doo as an Organic alternative to 12-12-12.

**Watering:** During the first year, deeply water plants once a week until the ground freezes in Fall. When watering, let the water slowly soak around the plant. Also remember to use **Root Stimulator** when watering.
