

COMMON LILAC

- Plant in full sun.
- Delicate, fragrant purple flowers in late spring.
- Excellent in a shrub border, accent, or mass plantings.

10' - 12'

Height

8' - 12'

Spread

Pruning: Prune after flowering in late spring/summer.

Fertilizing: Apply 12-12-12 fertilizer in March/April and in October/November. Also a fall application of Superphosphate will enhance flowering. Use Chickity Doo Doo as an Organic alternative to 12-12-12.

Watering: During the first year, deeply water plants once a week until the ground freezes in Fall. When watering, let the water slowly soak around the plant. Also remember to use **Root Stimulator** when watering.
