

ROYAL STAR MAGNOLIA

- Plant in full sun.
- Almost pink buds open, in spring, to fragrant, double blooms that are nearly pure white.
- Great landscape accent, screen, or specimen planting.

12' - 15'

Height

12' - 15'

Spread

Pruning: Prune in spring after the tree has flowered if needed.

Fertilizing: Apply 12-12-12 fertilizer in March/April and in October/November. Also a fall application of Superphosphate will enhance flowering. Use Chickity Doo Doo as an Organic alternative to 12-12-12.

Watering: During the first year, deeply water plants once a week until the ground freezes in Fall. When watering, let the water slowly soak around the plant. Also remember to use **Root Stimulator** when watering.
