

JEAN D'ARC ROSE OF SHARON

- Plant in sun to part shade.
- Large, double white flowers appear in late summer on new year's growth.
- Excellent as a mass or accent planting.

8' - 10'

Height

6' - 8'

Spread

Pruning: Prune in late fall/early spring or as needed throughout the year.

Fertilizing: Apply 12-12-12 fertilizer in March/April and in October/November. Also a fall application of Superphosphate will enhance flowering. Use Chickity Doo Doo as an Organic alternative to 12-12-12.

Watering: During the first year, deeply water plants once a week until the ground freezes in Fall. When watering, let the water slowly soak around the plant. Also remember to use **Root Stimulator** when watering.
