3' - 4'

Spread

Pruning: Prune in early spring if needed and in summer after flowering to promote new flowers.

Fertilizing: Apply 10-10-10 fertilizer in March/April and in October/November. Also a fall application of Superphosphate will enhance flowering. Use Chickity Doo Doo as an Organic alternative to 10-10-10.

Watering: During the first year, deeply water plants once a week until the ground freezes in Fall. When watering, let the water slowly soak around the plant. Also remember to use **Root Stimulator** when watering.
