

ST MARY'S BROOM BLUE SPRUCE

- Plant in full sun.
- A dwarf, blue, bun shaped evergreen that maintains a rounded shape without pruning. Slower growing than Globe Blue Spruce.
- Great as a specimen or accent planting for a small area.
- Will grow **2' - 3'** wide and **2' - 3'** tall

Pruning: Prune in spring after new growth emerges or as needed.

Fertilizing: Apply Iron Plus and 12-12-12 fertilizer in March/April and in October/November.

Watering: During the first year, deeply water plants once a week until the ground freezes in Fall. When watering, let the water slowly soak around the plant. Also remember to use **Root Stimulator** when watering.
